

NY has permanently approved our school to offer the 75 hour NYS Licensing Course in LIVE STREAM format with a LIVE teacher from the comfort of your home!

Students are loving it! Look at some of these comments...

“This is WAY better than online because **Mike tells us what to focus on for the state exam compared to traditional self-paced online courses where EVERYTHING looks equally important** and you don’t know what’s important!”

“Mike makes the class so fun! **I love the games** to help us learn all the terms (so much better than just listening to lecture in the classrooms and no distractions)!”

“I think I like this better than coming to class every week, I can sit comfortably at home & get all the same info!”

“Mike **interacts with students** just as if they were in the classroom!”

“I love the **detailed videos** the school sends to me in addition to the live review that we’d normally do in the classroom for each session”.

How it works:
